Experience LGC Architect, LLC, *Architecture, Planning & Interiors, Denver, CO, 2000-present*

Principal of LGC Architect, LLC a full service architectural practice located in Denver, Colorado that is dedicated to the creation of elegant, well designed, and skillfully crafted homes in both traditional and contemporary styles. LGC Architect solves each design challenge with the most appropriate and cost effective solution while providing innovative and beautiful designs of the highest quality.

Kohn Pedersen Fox Associates, Architects, New York, NY, 1993-1997, 1999-2000
Senior Project Architect, *University of Maryland Medical Expansion, Baltimore, MD, 1999-2000*

Served as design liaison between owner, medical planners, and consultant team in the design and construction of a 375,000 square foot diagnostic and treatment facility for the University of Maryland at Baltimore. The addition houses a new emergency department, digital imaging center, state-of-the-art surgical suite, and three levels of patient care units. At the center of the \$82 million complex is a terraced healing garden covered by a seven story glazed atrium. Responsible for coordinating the integration of the new building into the existing and often decrepit facility while maintaining the hospital's service throughout a fast-tracked construction process.

Project Architect, *Times Square Station Rehabilitation, New York, NY, 1995-1997*
Responsible for design coordination of a \$90 million renovation to the Times Square Subway Station. The design improves pedestrian circulation, and augments outdated lighting, ventilation and vertical transportation systems throughout the complex.

Project experience also includes the World Financial Headquarters in Shanghai, the Guggenheim Museum of Art in Tokyo, Central offices for Argentina Telecom in Buenos Aires, and the World Bank Headquarters in Washington D.C.

Liang Peddle Thorp, Architects and Planners, Hong Kong, 1997-1999

Senior Project Architect, *Prince's Building Redevelopment, Hong Kong, 1997-1998*
In charge of the design and documentation of the external recladding system and renovated storefront assemblies for a grade A retail complex in Central Hong Kong. Due to an unusually aggressive construction schedule, the design and working drawings for the \$75 million project were completed in only 11 weeks. Close coordination between owner, contractor and sub-contractors was a critical requirement of this fast-tracked project.

Senior Project Architect, *Mei Foo Station, Hong Kong, 1998-1999*
Responsible for the exterior design and documentation of Mei Foo Station, a 600,000 square foot transportation complex on the West Rail commuter line between Hong Kong and Guangzhou, China. The station is situated within an existing park, and is integrated into the terrain under a combination of planted roof decks, water features, and landscaped walkways. Project role included the design and coordination of the external enclosure package, as well as design review of the interior public concourse, back of house facilities, ancillary structures, and tunnel ventilation works.
